

Md. Sajeeb Khan

Information and Communication Technology Undergraduate

Aspiring Machine Learning Engineer

sajeeb.ict20@gmail.com | Tangail, Bangladesh

[LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [Codeforces](#)

Professional Summary

Information and Communication Technology undergraduate at Mawlana Bhashani Science and Technology University (MBSTU) with a strong foundation in Machine Learning, Artificial Intelligence, Software Development, and Competitive Programming. Proficient in Python, C++, Java, Django, MySQL, and modern web technologies, with hands-on experience developing academic, productivity, and browser-based applications. Completed Supervised Machine Learning coursework from DeepLearning.AI and actively building practical machine learning skills through projects and continuous learning. Strong problem-solving mindset with a focus on developing reliable, user-oriented software solutions and adapting to emerging technologies.

Education

Mawlana Bhashani Science and Technology University (MBSTU) *Tangail, Bangladesh*
B.Sc. (Engg.) in Information and Communication Technology *Aug 2023 – Present*

Current CGPA: 3.75/4.00

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence, Machine Learning, Digital Signal Processing.

Shahid Syed Nazrul Islam College *Mymensingh, Bangladesh*
Higher Secondary Certificate (Science) *2021*

Result: GPA 5.00/5.00

Madhupur Shahid Smrity Higher Secondary School *Tangail, Bangladesh*
Secondary School Certificate (Science) *2019*

Result: GPA 5.00/5.00 | **Board Scholarship Recipient**

Projects

Academic Ecosystem [\[Live Demo\]](#) *HTML, CSS, JavaScript, Bootstrap*

- Developed a comprehensive academic utility platform integrating Class Routine, Bus Schedule, Academic Calendar, CGPA Calculator, Target Mark Forecaster, and Semester Progress Tracker.
- Implemented browser local storage to provide offline functionality and preserve user data across sessions.
- Designed a responsive and user-friendly interface optimized for desktop, tablet, and mobile devices.

Personal Portfolio Website [\[Live Demo\]](#) *HTML, CSS, JavaScript, Bootstrap*

- Designed and developed a responsive personal portfolio showcasing education, technical skills, projects, certifications, and achievements.
- Implemented animations, interactive project showcases, responsive layouts, and modern UI components.
- Maintained the project using Git and GitHub with clean and modular code organization.

Task Manager *Django, Python, MySQL*

- Developed a web-based task management application with authentication and CRUD functionality.
- Integrated Django ORM with MySQL for efficient data management and user-specific task tracking.

- Implemented task categorization and progress tracking to improve productivity.

Codeforces Streak Tracker

JavaScript, Chrome Extension
API

- Developed a Chrome extension to track daily Codeforces problem-solving activity and maintain solving streaks.
- Integrated the Codeforces API to fetch submission history and display performance statistics.
- Implemented milestone notifications, streak visualization, and an intuitive popup interface.

Quiz Application System

Java, JavaFX, MySQL

- Developed a desktop-based quiz application for conducting timed academic assessments.
- Designed a normalized database schema for user authentication, question management, and result storage.
- Integrated JavaFX with MySQL using JDBC for efficient database connectivity and CRUD operations.

Personal Expense Tracker

Java, JavaFX, MySQL

- Built a desktop application to manage daily income and expense records with category-based filtering.
- Implemented interactive JavaFX charts to visualize spending patterns and financial statistics.
- Utilized JDBC and MySQL to perform CRUD operations and maintain transaction history.

Technical Skills

Programming Languages	Python, C, C++, Java, SQL, JavaScript
Web Development	HTML5, CSS3, Bootstrap, Django, Responsive Web Design, REST APIs
Machine Learning	NumPy, Pandas, Scikit-learn, OpenCV, Matplotlib
Database	MySQL, SQLite
Developer Tools	Git, GitHub, VS Code, IntelliJ IDEA, Eclipse, Overleaf
Operating Systems	Ubuntu Linux, Windows
Core Concepts	Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Competitive Programming

Competitive Programming

- **Codeforces Rating:** 1100+
- Solved 500+ algorithmic programming problems covering Data Structures, Graph Algorithms, Dynamic Programming, Greedy Algorithms, Number Theory, and Binary Search.
- Regular participant in Codeforces Div. 2 and Div. 3 contests with continuous improvement in algorithmic problem-solving.

Certifications & Courses

Supervised Machine Learning: Regression and Classification Completed July 2026	DeepLearning.AI, Coursera Certificate
IELTS Preparation Specialization Completed August 2026	Coursera Certificate
Ethical Issues in AI and Professional Ethics Completed August 2026	University of Colorado Boulder Coursera
1st International Symposium on AI Research & Graduate Scholarship Pathway (AIRGSP 2026) Certificate of Participation	June 2026 MBSTU, Tangail
EDGE Program – Django Web Development	Django / Web Development

Leadership & Achievements

- **Research and Publication Secretary, IEEE MBSTU Student Branch** – Coordinating student activities, publication initiatives, and technical programs.
- **IEEE Student Member** – Participating in IEEE technical activities, professional development programs, and student branch initiatives.
- **Executive Member, BASIS MBSTU Chapter** – Contributing to chapter activities, technical events, and initiatives connecting students with the software industry.
- **ICT Intra-Department Programming Contest** – 2nd Runner-up.
- **Board Scholarship Recipient** – Awarded scholarship in the SSC Examination for academic excellence.
